TRANSPORTATION -- MOTOR VEHICLES

Computer Database Redesign
[Paper # 930]

15-1

draft

Motion:

Move to require DOT to prepare a report by January 2, 2002, and biennially thereafter, to be presented to the Joint Committee on Finance and the Senate and Assembly committees that deal with transportation issues, on the progress of the redesign of the DMV's databases. Specify that the report must include a discussion of the following: (a) portions of the redesign project that have been completed; (b) portions of the redesign project that will be completed in the near future; (c) a long-term timeline for the project, including a list of project elements that remain to be completed; (d) the estimated time needed to complete the project; (e) process changes that have been made possible by recent progress on the redesign project or may be possible in the near future; and (f) any recommendations of funding changes or legislation that may facilitate the redesign project or process improvements.

(500n)

LFB:.....Dyck – Requiring DOT to prepare a report biennially regarding progress of computer database redesign.

FOR 2001-03 BUDGET — NOT READY FOR INTRODUCTION

SENATE AMENDMENT ,

TO 2001 SENATE BILL 55

1 At the locations indicated, amend the bill as follows:

2 1. Page 1037, line 6: after that line insert:
→ "SECTION 2340K. 85.517 of the statutes is created to read:

3 85.517 Computerized information systems. By January 2, 2002, and
4 biennially by January 2 thereafter, the department ~~of transportation~~ shall submit
5 to the joint committee on finance, and to the appropriate standing committees of the
6 legislature under s. 13.172 (3), a report on the department's computerized
7 information systems and the progress of the division of motor vehicles database
8 redesign. The report shall include all of the following:

9 (1) The identification of all portions of the database redesign that have been
10 completed and all portions planned for completion within 12 months following the
11 report.

date of the

⑧
(2)

The identification of any change in data processing, administrative, or other process efficiencies realized from those portions of the database redesign that have been completed or anticipated from those portions of the database redesign that are planned for completion within 12 months following the report.

⑧
(3)

A timetable for completion of the database redesign, including the identification of all portions of the database redesign that remain to be completed and their projected dates of completion.

⑧
(4)

Any recommended statutory changes or funding levels to facilitate the database redesign or any data processing, administrative, or other process efficiencies associated with the database redesign.”.

Subject: transportation drafts

Aaron,

I have a few changes to make on two drafts. Call me if you have questions about these:

On b0248/1: I think the report should be only on the DMV redesign and not "on the Department's computerized information systems." So, I think we should strike that part. The rest looks fine.

On b0245/1: I think we had better specifically say that the Finance Committee can transfer funds to the appropriation for departmental management and operations [20.395 (4) (aq)] for conducting a consultant study of the Department's computer needs when it reviews the Department's initial report. There may be some doubt as to whether the Committee would have the authority to do this if we don't specifically say they can do it.

Thanks.
